Development History

2015

- Successively participated in Global important exhibitions (USA /CES, Germany /IFA, HK/Global Sources Electronics, India Electronics Show, etc.)
- Upgraded all the products to be **VI energy efficiency**
- Applied the different industry safety certifications for all products, including IT、AV/**IEC62368**; Home appliances/**IEC61558**; battery charger/**IEC60335**; LED/**IEC61347**; Medical/**IEC60601**.

2017

- Completed the automation process layout. Production line and test line are equipped with many cutting-edge equipments.
- Started to apply for **UL60601** certification.

2016

Independent **smart charger workshop**
independent **switching power supply workshop** was established

2019

- Release **the first 100W 2C1A GaN charger**
- Lipstick model 65W2C1A, sells **1 million** PCS.

2018

- On the March, formally became the **membership of WPC**, and applied for **Qi certification** for wireless charging products.
- Designed and mass-produced **the world's first 65W2C1A GAN charger**

2020

- The company moved to a new factory and expanded its area to **12,000 SQM**, greatly increasing its production capacity
- Release **the first 100W 3C1A GaN charger**

2021

- Passed **BSCI, MFI, Qi, USB-IF** and other audit and certification
- Released **the first 100w 2C1A** and **100w 2C GaN charger**, which adopted planar transformer
- Released **the first 140w 2C1A, PD3.1 GaN chareger**

2022

Got **the first UL and 3C certification of 140W PD3.1 protocol** in the industry
